First there was 4 square...
and now the **REVOLUTIONARY 5 Square® Box!!**

You've struggled with 4 Square boxes for years - you know how small, cramped and time consuming they are. Finally, there is a solution that allows you the space you have always needed.

The **5 Square®** Boxes (5" x 5" x 2-7/8") provide up to 88 in³ of interior volume which more than doubles that of most existing boxes on the market.

Create a robust and unrivaled infrastructure for the life of your facility with the **5 Square®** Products!

Fire Signal

- TWICE THE VOLUME AS MOST BOXES
- SAVE LABOR...INCREASE PROFITS
- ELIMINATES TROUBLESHOOTING TIME AND COST
- FULLY UPGRADEABLE SYSTEM
- SPECIFIED BY ENGINEERING FIRMS, HOSPITALS, UNIVERSITIES & GOVERNMENT AGENCIES
- AVAILABLE IN ZINC OR RED

Telecommunications

- INTEGRAL CABLE MANAGEMENT
- SAVE LABOR...INCREASE PROFITS
- FACILITATES MIN. BEND RADIUS REQUIREMENTS
- SUPPORTS CURRENT AND EVOLVING SYSTEMS
- SUPPORTS PoE PLUS
- SPECIFIED BY ENGINEERING FIRMS, HOSPITALS, UNIVERSITIES & GOVERNMENT AGENCIES

Ratcheting Crimper Increases Crimping Power for All-Day Success

Klein Tools, for professionals since 1857, introduces the Full-Cycle Ratcheting Crimper, featuring three crimping cavities for use on 10-22 AWG stranded copper wire. Its ergonomic design reduces the force needed to crimp wires and enables consistent, repeatable crimps to help professional electricians get the job done right day in, day out.

Ratcheting Crimper, 10-22 AWG (Cat. No. 3005CR)

- Crimps insulated terminals onto 10-22 AWG stranded copper wire
- Adjustable compound action design puts more crimping power into each squeeze, reducing the force needed to complete successful crimps
- Three crimping cavities in one tool: 22-16 AWG (Red), 16-14 AWG (Blue) and 12-10 AWG (Yellow)
- Built-in ratchet ensures full-cycle crimping for a uniform crimp every time
- Unique cavity design provides consistent crimp from either side of the tool
- Dial adjusts the amount of force applied to the crimp
- Dual-material molded grips provide added comfort to help reduce hand fatigue

“Crimping insulated terminals onto wire is an essential, everyday function for professional electricians,” says Tyler Winthers, senior product manager at Klein Tools. “Klein’s new Ratcheting Crimper features three crimping cavities in one tool to reduce the number of tools needed to get the day’s tasks done right. Its adjustable compound action design reduces the force required to complete successful crimps with a built-in ratchet to improve consistency.

Professionals can expect to complete uniform crimps every time when equipped with this innovative new jobsite solution.”

H.265 180-Degree Panoramic and Multi-Sensor Cameras

Wide Coverage with Versatile Choices

Building on the product campaign of “See More in Smarter Ways”, VIVOTEK (TWSE: 3454), the global leading IP surveillance solution provider, has launched three new panoramic and multi-sensor cameras, the CC9381-HV, MS9321-EHV, and MA9322-EHTV. These three cameras feature H.265 plus VIVOTEK’s Smart Stream III video compression technology, WDR Pro, outdoor-certificated housing, and they are all safeguarded by Trend Micro IoT Security. Each is specially designed for versatile applications with different numbers of sensors, vertical fields of view (FOV), and IR distances, allowing users to increase their operational efficiency through a single camera.

“To meet ever-changing user demands, we always think about how to make our products better with new feature upgrades or new designs,” said Shengfu Cheng, Director of Product Development Division, VIVOTEK Inc. “Our new panoramic cameras fit into any type of scenario and they are also unique with a different size and shape. In addition, they provide benefits beyond the basics, including the reduction of network cables, camera licenses, and maintenance costs.”

We've Got You Covered

SAVE Time & Money with Kwikon ENT & Fittings compared to traditional EMT
Kwikon Electrical Nonmetallic Tubing (ENT), fittings, slab boxes and accessories are designed to work together and provide the most robust concrete-tight ENT system on the market.

KWIKON ENT

- Color-coded stripes for easy cable identification
- Available in coils, 10' sticks, and reels
- Lightweight and flexible for easy install that reduces labor by up to 50%

KWIKON FITTINGS

- Six locking tabs for unbreakable connections
- Concrete-tight, requiring no solvent welding or tape
- Fire, pull and impact resistant

KWIKON SLAB BOXES

- Boxes are installation ready and concrete-tight
- Approved for support of ceiling fans up to 35 lbs and luminaries up to 50 lbs
- Clear Vue removable cover for marking visibility and prevents slurry or stucco from entering the box

KWIKON FORM STUBBIES

- Eliminate the need to drill to the deck
- Available in the original stubby design, the angled version and the Multi-Link
- Protects the ENT from potential damage during the removal of wood forms

Electrical Systems

Products manufactured by IPEX Electrical Inc. and distributed in the United States by IPEX USA LLC
Kwikon® is a trademark of IPEX Branding Inc.

Of the 180-degree panoramic network cameras, VIVOTEK's CC9381-HV features a compact design that nonetheless provides 5-megapixel resolution and offers a 120-degree vertical field of view. 15-meter IR illuminators further enhance the camera and make it suitable for a wide array of both indoor and outdoor environments, such as boutiques, convenience stores, banks, schools and homes. The MS9321-EHV applies the brand-new Robocop design with a built-in sunshield that sleekly covers four 5-megapixel sensors in 65-degree vertical field of view. It also supports IR illumina-

tors effective up to 30 meters. Moreover, it is equipped with the Video Alignment feature, enabling users to experience a seamlessly stitched 180-degree horizontal view with superior details. Last but not the least, VIVOTEK has launched its new generation multi-adjustable sensor dome camera, the MA9322-EHTV. Featuring four independent 5-megapixel CMOS sensors with 3.7 to 7.7 mm motorized-focus lenses and 30-meter IR illuminators, the MA9322-EHTV allows users to simultaneously view four different areas while occupying only a single IP address. Taken in total, the above features

advance these new cameras beyond the current field of surveillance cameras to continue VIVOTEK's campaign of "See More in Smarter Ways."

Platinum Tools® to Give Away Two ezEX mini Termination & Test Kits During ISE Expo 2019

One Winner Will be Awarded Both Days of the Show; the Patented System Provides a Modular Solution to Make the Termination of Ethernet Cables Easy and Error-Free

Platinum Tools®, the leader in solutions for the preparation, installation, hand termination and testing of wire and cable, is proud to announce that it will give away two new ezEX mini Termination & Test Kits (p/n 90147) during ISE Expo 2019, held in Fort Worth, Texas from Sept. 24-25 at the Fort Worth Convention Center, booth #126.

Potential winners only need to come by the Platinum Tools booth during the show and get scanned in order to gain entry to the daily giveaway. One winner will be awarded each day of the show.

“The ezEX mini Termination & Test Kit makes the task of terminating Ethernet cables fast and easy,” said John Phillips, Platinum Tools, LLC product manager. “Everything you need contained and organized in a Platinum Tools

heavy duty nylon Hanging Tool Pouch. The right tools, the right connector selection and the right tester for termination validation.”

The ezEX mini Termination & Test Kit is now shipping. The ezEX mini Termination & Test Kit (p/n 90147) giveaway includes:

- EXO Crimp Frame with EXO-EX Die
- MapMaster mini RJ45 Cable Tester
- Network Map/ID Remote Set, #1 - #5
- Scissor-Run Electrician’s Scissors
- Cat5e/6 Cable Jacket Stripper
- ezEX38 Connectors (20 pcs)
- ezEX44 Connectors (20 pcs)
- ezEX48 Connectors (20 pcs)
- Platinum Tools Hanging Pouch

“This is the ideal, complete kit,” added Phillips. “Every professional should have this on hand during every call.”

The new patented EXO Crimp Frame® is a RJ45 crimp tool that can terminate multiple sizes of cables and conductors. The crimp frame highlights two interchangeable dies that work with EZ-RJ45® and ezEX-RJ45® connectors. The tool design allows for future upgrades by purchasing a new die. The new ezEX-RJ45 feed-through connectors with staggered channels matched with the new EXO Crimp Frame + EXO-EX Die are specifically designed to crimp and flush-trim the protruding conductors in a single operation. This patented new termination system couples two concurrently developed and matched solutions for terminating larger cables.

The MapMaster™ mini RJ45 cable tester maps multiple locations of RJ45 network cables and detects shorts, opens, miswires, reversals, and split-pairs. A built-in tone generator with four different tone combinations can be used with a tone probe to detect where a cable is routed and the location of the end of the cable. This tester determines wire condition, whether good or faulty, and displays it on its LCD display. A set of five mapping remotes is included for locating cables terminated in wall jacks or patch panels. The MapMaster™ mini also identifies the patch panel port where network cable is terminated and can find and fix the position of exposed or hidden cables.

Platinum Tools® Features New MapMaster™ mini RJ45 Pocket Cable Tester at ISE Expo 2019

Now Available, the MapMaster™ mini Pocket Cable Tester (p/n T109C) Maps Multiple Locations of RJ45 Network Cables and Detects Shorts, Opens, Miswires, Reversals, and Split-Pairs

Platinum Tools®, the leader in solutions for the preparation, installation, hand termination and testing of wire and cable, is proud to announce it will feature the new MapMaster™ mini Pocket cable tester (p/n T109C) during ISE Expo 2019, held in Fort Worth, Texas from Sept.

NEW

Sceptalight™ LED

Introducing the NEW Sceptalight™ LED light fixture and adapter kit. Sceptalight LEDs offer significant energy savings and can last beyond 50,000 hours without a single need for maintenance. Certified and tested for use in indoor, outdoor, wet locations, wash down and corrosive environments, Sceptalight LEDs are certified to the latest LED light fixture standards and NEMA 4X approved.

STANDARDS

LIGHT FIXTURE (LVPF/LVPE-LED)	CSA C22.2 250.0	UL 1598
LIGHT ENGINE (LLED-15)	CSA T.I.L. B-79A	UL 1598C

RETROFIT OPTION

Sceptalight LEDs can easily retrofit onto existing installations for increased energy savings.

CORROSION RESISTANT

Heat sink is coated with a durable e-coat layer that prevents corrosion.

NEMA 4X AND IP66 RATED

Approved for wet locations, wash down and corrosive environments.

HEAT DISSIPATION

Specially designed heat sink ensures long life and optimum performance for over 50,000 hours.

ENERGY EFFICIENT

1,000 lumens of light output is produced with only 15 Watts of electricity.

DIMMABLE

Lights are dimmable down to 5% for maximum control of the lighting environment.

POLYCARBONATE GLOBE

Impact and weather resistant for tough environments.

KRALOY®

Products are manufactured by IPEX Electrical Inc. and distributed in the United States by Kraloy, a division of Multi Fittings Corp. Kraloy is a registered trademark of Multi Fittings Corp. Sceptalight™ is a trademark of IPEX Branding Inc.

24-25 at the Fort Worth Convention Center, booth #126. Now available, the MapMaster™ Mini has an MSRP of \$59.95.

“The MapMaster™ mini RJ45 cable tester maps multiple locations of RJ45 network cables and detects shorts, opens, miswires, reversals, and split-pairs,” explained George Jang, Platinum Tools, LLC product manager. “A built-in tone generator with four different tone combinations can be used with a tone probe to detect where a cable is routed and the location of the end of the cable. Every installer should have this on hand for every installation, troubleshooting, and maintenance calls.”

The MapMaster™ mini determines wire condition, whether good or faulty, and displays it on its LCD display. A set of five mapping remotes is included for locating cables terminated in wall jacks or patch panels. The MapMaster™ mini also identifies the patch panel port where network cable is terminated and can find and fix the position of exposed or hidden cables.

Additional features include:

- Large LCD displays TIA/EIA568A/B wiremap sequence & easily identifies faults
- Identifies Network ID-Only Remotes Set #1-5
- Compatible with up to two test and map remotes
- Quickly identify unlabeled network cables
- Trace/locate network cables and locate breaks/opens in network cabling
- Single multi-function button operates test functions, tone generation, and ID-Only remotes location
- Self-storing remote
- Auto power off prevents depletion of battery power

About Platinum Tools

Platinum Tools, founded in 1997, was created based upon two very simple objectives. First, develop the absolute best possible solutions for the preparation, installation, and hand termination of wire and cable. Second, implement an operational infrastructure that can deliver these products in an efficient, timely, and high quality manner.

All of our products must absolutely satisfy three critical benchmark criteria...utility of function; quality of function; and economic value. Our people are our company. They, too, must be focused on and work to satisfy three critical benchmark criteria...customer satisfaction; product knowledge and expertise; and willingness to learn and adapt.

Platinum Tools® Launches New ezEX®38 RJ45 Connector During ISE Expo 2019

Available as Both Shielded and Unshielded and Made in the USA, This RJ45 Pass Through Style Connector is Designed for Smaller Cables and Conductors Typically Found in Cat5e and Smaller Cat6 Cabling

Platinum Tools®, the leader in solutions for the preparation, installation, hand termination and testing of wire and cable, is proud to announce the launch of the new ezEX®38 RJ45 connector during ISE Expo 2019, held in Fort Worth, Texas from Sept. 24-25 at the Fort Worth Convention Center, booth #126.

“Available as both shielded and unshielded, the ezEX38 RJ45 connector is designed for smaller insulation diameters typically found in Cat5e and smaller Cat6 cabling,” explained John Phillips, Platinum Tools, LLC product manager. “The ezEX®38 features the same unique integrated patented Hi-Lo stagger load bar, allowing the conductors to pass through the front end of the connector making it easy to verify the wiring sequence before terminating. This connector is typically used with Cat5e and smaller Cat6 cabling. The compatible crimping tool is our EXO Crimp Frame® and EXO-EX Die™ (100061C).”

Additional features and specifications include:

- Recommended for Data and PoE Applications

- 10 Gig Rated
- Simple one piece/pass through design, no bars or liners
- Insulation Diameter (Conductor) Size range: .033in. – .038in. (0.84 –0.97mm)
- Max Outer Diameter: .290in. (7.36mm)
- 50 micron gold plated contacts
- 5e/6/6A compliant
- Solid or Stranded 24-22 AWG
- TIA, TAA, RoHS, UL & FCC compliant

“Platinum Tools has been asked by installers to create an ezEX that will work on the smaller insulation diameters, and we answered the call,” Phillips concluded. “Now we can offer a full range of insulation diameters from 0.033 in. thru 0.048 in.”
