**First there was 4 square...
and now the **REVOLUTIONARY 5 Square®** Box!!**

You've struggled with 4 Square boxes for years - you know how small, cramped and time consuming they are. Finally, there is a solution that allows you the space you have always needed.

The **5 Square®** Boxes (5" x 5" x 2-7/8") provide up to 88 in³ of interior volume which more than doubles that of most existing boxes on the market.

Create a robust and unrivaled infrastructure for the life of your facility with the **5 Square®** Products!

Fire Signal

- TWICE THE VOLUME AS MOST BOXES
- SAVE LABOR...INCREASE PROFITS
- ELIMINATES TROUBLESHOOTING TIME AND COST
- FULLY UPGRADEABLE SYSTEM
- SPECIFIED BY ENGINEERING FIRMS, HOSPITALS, UNIVERSITIES & GOVERNMENT AGENCIES
- AVAILABLE IN ZINC OR RED

Telecommunications

- INTEGRAL CABLE MANAGEMENT
- SAVE LABOR...INCREASE PROFITS
- FACILITATES MIN. BEND RADIUS REQUIREMENTS
- SUPPORTS CURRENT AND EVOLVING SYSTEMS
- SUPPORTS PoE PLUS
- SPECIFIED BY ENGINEERING FIRMS, HOSPITALS, UNIVERSITIES & GOVERNMENT AGENCIES

Platinum Tools Announces New Fiber Optic Visual Fault Locator

*Now Available;
Works with Virtu-
ally All Common
Fiber Optic Sizes
and Connector
Types,
Allowing You to
Test Cables Prior
to Install and Test
Patch and Break-
out Cables for
Faults*

Platinum Tools® (www.platinumtools.com), the leader in solutions for the preparation, installation, hand termination, and testing of wire and cable, is proud to announce the launch of its new Fiber Optic Visual Fault Locator (p/n TVFL100). Now available, the fault locator has an MSRP of \$105.00.

“Our new Fiber Optic Visual Fault Locator works with virtually all common fiber optic sizes and connector types, allowing you to test cables prior to install, and test patch and breakout cables for faults,” explained Sean Rothermel, Platinum Tools product manager. “The TVFL provides easy visual location of fiber optic cable faults, comes in a zip carrying case, and includes an adaptor for 2.5mm and LC ferrules.”

Additional features and specifications include:

- Bright 10mW laser for continuity testing; also shows breaks and performance-reducing bends in most types of fiber optic cable
- Aluminum construction for durability
- Runs for more than 20 hours on 2 AA batteries (included)
- Simple slide switch to select either a flashing or solid beam for easy identification of problems
- Fast & easy pass/fail testing of most fiber optic cables
- Convenient hinged endcap protects tip when not in use

For additional pricing and more information on Platinum Tools and its complete product line, please visit www.platinumtools.com, call (800) 749-5783, or email info@platinumtools.com.

About Platinum Tools

Platinum Tools LLC, an NSi Industries company, was created based upon two very simple objectives. First, develop the absolute best possible solutions for the preparation, installation, and hand termination of wire and cable. Second, implement an operational infrastructure that can deliver these products in an efficient, timely, and high quality manner.

All of our products must absolutely satisfy three critical benchmark criteria... utility of function; quality of function; and economic value. Our people are our company. They, too, must be focused on and work to satisfy three critical benchmark criteria...customer satisfaction; product knowledge and expertise; and willingness to learn and adapt.

Ring Power Utility Equipment Standardizes on PAL in the Bucket

The Terex® Positive Attachment Lanyard warning device, or “PAL in the Bucket” option is now being offered by Ring Power Utility Equipment on aerial devices available from Terex with this option.

The PAL system is currently available as an option on Terex Hi-Ranger LT40 and XT Pro aerial device models. PAL will be an option on other Terex models as they are developed. Terex Utilities first introduced the PAL system concept in 2017 after running a pilot program with a leading electric utility cooperative.

Ring Power Utility Equipment, based in Jacksonville, Fla, ordered more than 150 aerial devices over the last year, equipped with the optional operator aid. Those units are now all working in the field as part of Ring Power’s rental fleet.

“Ring Power Utility Equipment is committed to be a leader when it comes to promoting work practice safety. We have a culture of safe work practices, seeking to apply continuous improvement towards zero harm on a daily basis. When Terex announced they were bringing the Positive Attachment Lanyard system to the market and were seeking a dealer partner to help support the endeavor, Ring Power Utility Equipment committed right away. We elected to standardize all purchases of equipment available from Terex with this option,” said Mike Beauregard, Vice President, General Manager of the Utility Equipment Division of Ring Power.

PAL provides audio and visual warnings when controls are engaged and the lanyard has not been attached to the lanyard anchor in the bucket. The system is designed to reduce the chance of an operator elevating the bucket without a lanyard

attached. "The inspiration for PAL came from customers. When customers voice concerns or face challenges, we work together with them to find solutions," said Osvaldo Jimenez, Strategic Account Manager supporting Ring Power.

"A commitment to aiding users in their work safe work practices sometimes requires that you be willing to step outside the box and to constantly look for ways to bring better awareness of hazards in the environment," said Beauregard. "The PAL System, along with the aerial boom load monitoring available from Terex Utilities and Ring Power Utility provides customers a little more peace of mind in offering their crews the most reliable products in the industry."

About Terex

Terex Corporation is a global manufacturer of lifting and material processing products and services delivering lifecycle solutions that maximize customer return on investment. Major Terex brands include Terex, Genie and Powerscreen. Terex solutions serve a broad range of industries, including construction, infrastructure, manufacturing, shipping, transportation, refining, energy, utilities, quarrying and mining. Terex offers financial products and services to assist in the acquisition of Terex equipment through Terex Financial Services. More information about Terex is available on its website: www.Terex.com, and on its LinkedIn page -- www.linkedin.com/company/terex and Facebook page -- www.facebook.com/TerexCorporation

**Platinum
Tools®
Launches
Fiber Optic
Cleaner Line**

*Available in 1.25mm and 2.50mm Sizes, the Color-Coded, Pen-Style
Cleaners Work with Virtually All Common Fiber Optic Connector Types*

Platinum Tools®, the leader in solutions for the preparation, installation, hand termination, and testing of wire and cable, is proud to announce the launch of its new Fiber Optic Cleaner line. The two new color-coded cleaners are available in 1.25mm (p/n FC125) and 2.50mm (p/n FC250) sizes.

“These new, easy-to-use, pen-style cleaners have been designed to work with virtually all common fiber optic sizes and connector types, allowing you to clean connectors and ports for the best possible optical performance,” explained Sean Rothermel, Platinum Tools product manager. “With two sizes with color-coded tips for easy identification, all you need to do is push to effortlessly clean fiber ports or connectors. It really is that simple.”

Additional features and specifications include:

- Silk thread provides more than 900 cleanings and advances automatically after each use for particle-free connections
- Single push cleans with ease
- Unique two-position cap cleans ports and connectors with the same device
- Weight: only 2oz.
- Length: under nine inches (225mm)
- Blue tip = 1.25mm size for LC & MU connectors
- White tip = 2.50mm size for SC, FC & ST connectors
- MSRP for both sizes: \$87.50
